

Ops Shop & Season Wrap-Up

You've got questions, we've got answers!

Here is your chance to ask the professional about water chemistry, leaks, renovations, repairs, pre/post season work, tricks of the trade, VFD's, pool inspections, permits, freezing pipes, weird pump room sounds, staining, UV maintenance, and much more!

After lunch, these are just a few of the topics we will dive into: What went well this season and what areas still need some work? Brain storm among your peers and see how they have solved a similar problem. Learn different staff retention strategies and how to ensure guards will perform at their best all the time!

Hosted by...

Facilitated by...

TUES., OCT. 16
